

Certificate of participation

Healthy Children in Healthy Families

I certify that

«*Name*»

has participated in the European Project “Healthy Children in Healthy Families”, and has received training to become a Local Health Ambassador from «Fra_» to «Til». The training also included development and implementation of concrete health promoting activities.

The Healthy Children project is a co-operation between partners from 6 European countries:

Denmark: Vejle Municipality, Odense Municipality, University College Lillebaelt

UK: Coventry City Council, Coventry University

Norway: Oslo Municipality, Oslo University College

Spain: Municipality of ARROYO DE LA LUZ

Italy: Verona University, Local Health Trust 20 of Verona

Croatia: The County of Karlovac, Medical School of Karlovac

The overall philosophy of the “Healthy Children Concept” is to create strategic partnerships between local health promoting authorities, civil society organisations and volunteers, and to train the volunteers to act as “health ambassadors” working with children and young people in deprived areas.

August 2013

.....

Erik Knudsen, Rector
University College Lillebaelt
Soldalen 8, 7100 Vejle
